- 4. Next Steps**
(Discuss remaining steps to complete the Study and generate the Final Report)
- 5. Schedule next meeting for December 5, 2007**
- 6. Adjourn.**

* Attachment

2020 PENINSULA GATEWAY CORRIDOR STUDY

AGENDA REPORT

Date: November 7, 2007

To: 2020 Peninsula Gateway Corridor Study – Technical Advisory Committee

From: John Hoang

Subject: Categorization of Project Alternatives

(For further information contact John Hoang at 363-4105)

It is requested that committee members make an initial attempt to assign the various project alternatives into project categories (see below) and be ready to discuss outcome during the meeting. The TAC, as a group, will discuss the project categories and go through the exercise of categorizing each project alternatives. Please refer to the “Universe of Projects” description and latest assessment matrices for project descriptions and assessments (included with Agenda packet)

Below are the five categories and definitions that will be used for categorizing different project alternatives. Project alternatives identified in the “Universe of Alternatives” will be categorized based on the resulting analyses performed including traffic benefits, project costs, and potential impacts as depicted in the alternative assessment matrices. The purpose of assigning project alternatives into these categories is to establish strategies to identify potential projects for the next phase of the 2020 Study.
